

# POWER MOULD

## ULTRA LEAD SAVING IN COS MOULDING

Unique mould design & treatment technology ensuring unsurpassed strap thickness, casting consistency and fusion quality. Power Mould technology is incorporated with BATEK COS machines, providing savings up to 30% in lead alloy consumption. Discover new frontiers in COS with a revolutionary saving that will put you ahead of the competition.

LOOK BEYOND  
RUDIMENTAL  
EXCEL IN  
ASSEMBLY

Flexible, durable and cost efficient products brought to you with remarkable performance. Brilliant designs and precision crafting in machining culminate in expertly fabricated machinery.
